The First Americans-James Adovasio 2009-01-16 J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science."

At Home in the Woods-Bradford Angier 2015-05-15 One hundred years ago, Henry Thoreau wrote of the charms and joys of simple living in the woods, away from the hectic nuisances of our city civilization. His philosophy has become part of our American heritage, as sound today as the day he first set it down. But his advice on the simple life has seemed too rugged for later generations, brought up in cities, pampered with conveniences and scared of nature. Vena and Brad Angier were fed up with their city bound existence and longtime readers and admirers of Thoreau, they set out to see if his discoveries were valid today. This is the account of two wilderness-loving tenderfeet, who headed for the tall timber on the banks of the Peace River, British Columbia. There near the trading post of Hudson Hope they found their Walden. How they made themselves 'At Home in the Woods,' stocked their cabin, met their interesting wilderness neighbors who helped them get settled and who saw them through their first winter makes honest and exciting reading. The city-bred Angiers found out that Thoreau was right when he wrote: "What people say you can not do, you try and find you can."

Texas Boomtowns: A History of Blood and Oil-Bartee Haile 2015 On January 10, 1901, Beaumont awoke to the historic roar of the Spindletop gusher. A flood of frantic fortune seekers heard its call and quickly descended on the town. Over the next three decades, Texas's first oil rush transformed the sparsely populated rural state practically beyond recognition. Brothels, bordellos and slums overran sleepy towns, and thick, black oil spilled over once-green pastures. While dreams came true for a precious few, most settled for high-risk, dangerous jobs in the oilfields and passed what spare time they had in the vice districts fueled by crude. From the violent shanties of Desdemona and Mexia to Borger and beyond, wildcat speculators, grifters and barons took the land for all it was worth. Author Bartee Haile explores the story of these wild and wooly boomtowns. Book jacket.

Secret Life, Secret Death-Genevieve Davis 2013-03-30 "Buried in the many myths surrounding notorious Chicago gangland history lies the hidden, mostly forgotten 'shadow stories' of the era--intensely personal family stories evoking the terrible human toll exacted on ordinary people, caught in the web of Chicago's crime-ridden sin streets and the not-so-pastoral North Woods of Wisconsin."--Back cover.

How to Create the Perfect Wife-Wendy Moore 2013-04-09 Thomas Day, an 18th-century British writer and radical, knew exactly the sort of woman he wanted to marry. Pure and virginal like an English country maid yet tough and hardy like a Spartan heroine, she would live with him in an isolated cottage, completely subservient to his whims. But after being rejected by a number of spirited young women, Day concluded that the perfect partner he envisioned simply did not exist in frivolous, fashion-obsessed Georgian society. Rather than conceding defeat and giving up his search for the woman of his dreams, however, Day set out to create her. So begins the extraordinary true story at the heart of *How to Create the Perfect Wife*, prize-winning historian Wendy Moore's captivating tale of one man's mission to groom his ideal mate. A few days after he turned twenty-one and inherited a large fortune, Day adopted two young orphans from the Foundling Hospital and, guided by the writings of Jean-Jacques Rousseau and the principles of the Enlightenment, attempted to teach them to be model wives. After six months he discarded one girl, calling her "invincibly stupid," and focused his efforts on his remaining charge. He subjected her to a number of cruel trials—including dropping hot wax on her arms and firing pistols at her skirts—to test her resolve but the young woman, perhaps unsurprisingly, eventually rebelled against her domestic slavery. Day had hoped eventually to marry her, but his peculiar experiment inevitably backfired—though not before he had taken his theories about marriage, education, and femininity to shocking extremes. Stranger than fiction, blending tragedy and farce, *How to Create the Perfect Wife* is an engrossing tale of the radicalism—and deep contradictions—at the heart of the Enlightenment.

The Hard Thing About Hard Things by Ben Horowitz - A 30-minute Summary & Analysis

Instaread Summaries 2014-10-21 PLEASE NOTE: This is a summary of the book and NOT the original book. The Hard Thing About Hard Things by Ben Horowitz - A 30-minute Summary & Analysis Inside this Instaread Summary: • Overview of the entire book • Introduction to the important people in the book • Summary and analysis of all the chapters in the book • Key Takeaways of the book • A Reader's Perspective Preview of this summary: Introduction Ben explains that every time he reads a self-help or management book, he thinks about the fact that it didn't really address the hard things like laying people off or having good people start demanding unreasonable things. The problem with self-help books is that they try to provide a recipe for dealing with difficult, dynamic situations. Challenging situations can not be solved with a formula. Instead of using a formula in this book, the author presents his story as he progressed from an entrepreneur to CEO to venture capitalist. He shares some of the lessons he has learned along the way. He explains that although circumstances may differ, patterns and lessons resonate with each experience. For the last several years, he has shared lessons learned on his popular blog. Many people have emailed him to ask about the stories behind the lessons. Ben shares that he has been inspired along the way by many family members, friends, and advisers who have helped him. Hip-hop/rap music has also inspired him because these artists aspire to be both great and successful. He also admires that rappers see themselves as entrepreneurs. [1: From Communist to Venture Capitalist Ben's grandparents were card-carrying Communists. His dad grew up indoctrinated in the Communist philosophy. Ben's family moved to Berkeley, California, in 1968. His dad then became the editor of the famous New Left magazine, Ramparts. When Ben was five, his family moved to Bonita Avenue, a middle-class Berkeley neighborhood. One day, a friend of Ben's older brother, Roger, pointed to an African American kid down the block who happened to be riding in a red wagon. Roger dared Ben to go tell the kid to give him his wagon, and if he refused, to spit in his face and call him a racial epithet. Roger wasn't a racist and did not come from a bad family. Ben later found out that he had schizophrenia. He had wanted to see a fight. Ben was afraid of Roger, and his demand put him in a very tough situation. He thought Roger would beat him up if he didn't do what he told him to do.

He was also afraid to ask for the wagon. He walked toward the boy and when he got near enough, he said, "Can I ride in your wagon?" The boy, Joel Clark Jr., said, "Sure." Ben turned to look at Roger and saw that he was gone. Ben went on to play with Joel all day, and they have been best friends ever since. That experience taught Ben that being scared didn't mean he was gutless. He learned that what he did mattered and determined whether he would be a hero or a coward. If he had completely followed Roger's order, he would have never met his best friend. He also learned not to judge things by appearance alone. If a...
